THIS EVENT IS SUPPORTED BY

In this event, we will tackle a number of unique and timely topics in order to educate and empower patients and their providers. In this webinar, we will:

1. Share stories and information about some of the rare diseases and disorders of pregnancy
2. Discuss some of the greatest barriers to accessing appropriate maternity care in Alabama
3. Debunk some of the myths surrounding clinical research and trials, including answering your questions on COVID-19 and pregnancy. We will also engage in a candid conversation on racial equity in maternity care.

This is a jam-packed web event, and we hope you bring your questions and share with your partners! Please register at the link below.
